

Case Competition

Join and win!

Participate in Ericsson's case competition and develop an innovative service idea for Future Smart Energy Use!

Ericsson challenges you:

Develop new ideas and service concepts for future smart energy use related to "ConnectedEnergy" to enhance the decentralized energy production through wireless communication. The focus of this service should be located in the Business to Consumer (B2C) sector in the fields of Energy production, distribution and usage.

In this case competition your team competes with other teams consisting of students from Institut polytechnique de Grenoble, VIA University College, RWTH Aachen University and other interested Universities.

The top teams will be invited to Aachen in order to present their concept to a jury from Ericsson and representatives of the universities at a three-day workshop and feedback event between 10 – 12 June 2014.

The 3 day program includes a Guest Lecture, an Excursion and a Pub Crawl in Aachen, where you have the unique chance to extend your career network and discuss your ideas with professionals.

The members of the three winning teams will be rewarded for their ideas with high quality prizes:

- 1st Prize: iPad 32 GB & internship at Ericsson
- 2nd Prize: iPad mini 32 GB
- 3rd Prize: Bluetooth ear-phones & 25 Euro download voucher for Spotify

All degrees from Business, Design, Engineering and other fields are welcome to participate!

Registration closes
11th of April 2014!
Virtual videostreamed
Kick-off-Event
14th of April 2014!
